Boom in Wheat Collapsed and September Lost a Fraction.

SHORTS OVER THEIR SCARE OF THURSDAY

Early Closing of the Exchange Today and Occurrence of a Holiday Monday Had Some Influence in Checking Business.

CHICAGO, Sept. 1.-The shorts got over their scare today. The edge was off the boom in wheat, and %c of yesterday's advance in September was lost. December suffered a more serious decline of 13cc. The difference in the loss in September and December is Mc, and represents just so much reduction in the carrying charge since yesterday. It amounts now to only 516c between September and December. Corn was heavy and closed at a decline of 150 per bu. Provisions dragged through another weary day.

The early closing of the exchange tomorrow and the occurrence of a holiday on Monday had some influence in checking business. The Illinois crop report shows a larger yield than anticipated. Deliveries on September contracts were lighter than generally anticipated, and the property was reported to have centered in strong hands. The receipts at the principal points exhibited some enlargement, which had a little effect in a general way. The liberal stocks of flour and wheat in Liverpool—showing an increase of nearly 1,000,000 bu, during August—had a weakening effect. The principal business was in buying September and selling Decem-The market opened unsettled and from For 1 1/2 lower and further reductions of from 1/2 to 1/2 were submitted. At the decline there was moderate buying credited to cline there was moderate buying credited to "shorts" and prices were advanced from 1/20 to 1/20 for September and 1/20 for December. After these wants were provided for an ensier feeling was developed and prices gradually receded from 1/20 to 1/20 and the market ruled rather tame with slight fluctuations to the close.

Corn ruled quiet most of the day, fluctuations covering but 15c range. The strength of September was quite noticeable. The demand was not near so large as yesterday and after opening at the closing prices o yesterday offerings became quite free, the pesterday oberings became unite free, the action of wheat exerting some influence. It closed at a loss of from 3cc to 3cc.

Oats were quiet and easier, with most, trading switching from near to distant months. Prices receded 3cc and closed steady

Northwestern Miller's Statement.

MINNEAPOLIS. Sept. 1.—The Northwestern Miller says: While the mills last week did not quite touch the figures of the week before, they made a big showing. Their aggregate production was 197,575 bbls. averaging \$2,929 bbls. daily, against 203,930 bbls. the previous week. The flour market is characterized as dull by about everybody. Millers are pretty firm in their prices and refrain from crowding business very hard, owing to the uncertainty surrounding money matters.

The domestic traders are buying only where it is absolutely necessary to do so, and do not vary greatly in volume. Exports also are light, as the foreigners are not willing to pay what the millers ask. There is a pretty good market for red dog at home as feel, and this keeps the prices firm. On other grades prices are about the same as they were a week ago. Lower freight rates, both domestic and ocean, help out the miller somewhat, and the situation as to exchange is say, improving. tion as to exchange is also improving.

STOCKS AND BONDS.

Course of the Market a Distinct Disappointment Generally. NEW YORK, Sept. 1 .- The emphatic denial by the General Electric officials that their company was in any difficulty had a good effect on the stock market at the start. The rally to 38% at the opening upset the calculations of a number of operators who had been loud in their predictions of a further general decline in prices. The course of the market in the early trading was a distinct disappointment to this class, and an attempt to cover was made by those who had sold on the General Electric receivership rumor. The supply of stocks was smaller than they had supposed, a fact which is corroborated by the high lending rates for General Electric, Louisville & Nashville and Burlington & Quincy came under this action also. The first number was worth is per cent per diem for use. In the afternoon the failure of the Equitable Mortgage company of Missouri, with main offices in this city, was announced, and it was stated that another institution of similar character was in trouble. The importance of the failure of the former subsequently proved to have been exaggerated but not until the room had put out fresh lines of shorts. Brokers in receipt of ready information of the misfortune of

of ready information of the misfortune of the Equitable Mortgage company concluded its interests were largely centered in the eastern states. Consequently they sold New England, and by main force put the stock down from 24 to 20. Holders of other stocks refused to be frightened, however, and when this became apparent to the bears, a rush was made to get back stocks put out at lower figures. This buying gave the market an appearance of buoyancy and a majority of the leading issues sold at the best prices of the day and week. St. Paul rose to 59, Burlington &

Quincy to 80%, Rock Island to 63%, North-western to 68%, Sugar to 85, Louisville & Nashville to 55%, Northern Pacific pre-ferred to 22%, Reading to 17%, St. Paul & Omana to 23%, Union Pacific to 53 and Western Union to 79%, At the close the market was strong. The sales of listed and unlisted stocks were 173,-650 shares.

660 shares. The Post says: Money is in detailing better supply throughout the country. The rise in domestic exchange rates in New York is chiefly due to falling off in the supply of drafts pressing upon the market but shows, none the less, that the needs of internal country have been satisfied in other terior consignors have been satisfied in other terior consignors have been satisfied in other ways. At Chicago, where the banks have no loan certificates to liquidate, the easing of the money market progressed so rapidly today that contracts for wheat delivery broke with great violence, with the September price standing unchanged. There is, indeed, good reason for supposing that the \$40,000,000 of foreign gold imported during August has been sent where it is now at last restoring monetary equilibrium.

On the London Market. On the London Market.

New York, Sept. 1.—The Evening Post's London financial dispatch says: The Bank of England bought today £11,000 in bar gold. Forty thousand sovereigns were withdrawn for Bucharest. The suspension of the Equitable Mortgage company of Missouri interests many small sections, but does not affect credit here. The stock markets here were dull today. Americans partly rallied towards the close on indefinite rumors of an issue soon of an American gold loan. Silver was down to \$4d and rupee paper to \$67% d.

OMAHA LIVE STOCK MARKETS. Receipts Fall Off Considerably and Send

Prices Up with a Bounce. FRIDAY, Sept. 1.
Receipts of all kinds of stock were comparatively moderate today. So far this week, compared with last, variations in supplies have been slight. Cattle receipts have increased about 2,500 head and hogs about 3,000 head. There has been a falling off of nearly 1,000 sheep.

The comparatively light run of cattle and the more encouraging news from eastern

markets resulted in more activity and atrength than on any previous day this week. That is, the market was brisk and strong on the right kind of cattle. Dressed beef men were, as usual of late, the only buyers, but they needed the few good cattle here, and needed them ball. They paid from \$4.25 to \$4.75 for good to choice 1.228 to 1.420-1b, beeves, or pretty close to a dime higher than yesterday. Even the very fair to poor stuff sold at substantially stronger prices, from \$3 to \$4. Offerings of western range cattle were somewhat limited and nothing extra as to \$4. Offerings of western range cattle were somewhat limited and nothing extra as to quality. The few steers that were fit to kill went at from \$8 to \$3.25, or not far from steady prices. There were lots of Texas cattle here, and the market was slow and barely steady for them. A bunch of Wyoming-Texans averaging 1,040 lbs. brought \$2.50, and a train load of \$38-lb. Indian Territory-Texans sold for \$2.35. There seemed to be a good firm healthy undertone to the trade, and the noon hour found the supply practically out of first hands. practically out of first hands.

Good to choice fat cows and helfers at from \$2.10 up to \$2.90 were strong to 10c higher than Thursday, while the common and canning grades at from \$1 to \$2 were not

quotably changed. Calves were about steady and the market for rough stock was firm. There was a good lively trade in stockers and feeders at prices steady to a shade stronger all around. All classes of buyers took hold freely and business was brisker than for several days past. Good to choice feeders are quotable at \$2.75@3.25, fair to good at \$2.75.

Hogs-The run today fell considerably short of dealers' estimates and the result was a grand scramble among buyers to fill orders and a further advance in prices of from 10c to 25c. With less than 5,000 hogs on sale, favorable reports from Chicago, an active shipping and an unusually urgent local demand sellers were in a position to force an advance all along the line. Light and light mixed hogs soid at from \$5.25 up to \$5.50, with the bulk at \$5.30 and \$5.35. The heavy and mixed packing grades, however, showed the most advance, selling largely at Choice heavies sold as high as \$5.35, and \$5.121 was
the extreme low mark for full loads.
The trade was exceedingly lively from
scratch to wire, the close being at the high
point of the day. Sales were at \$5.20 to \$5.35 mostly, as against \$5 to \$5.15 Thursday and \$5.10 to \$5.25 one week ago today. Representative sales:

CHICAGO, Sept. 7:— Special Telogram to The
BEE!— There was continued firmness in the
cattle market. Receipts were again light and
the demand of a general character and fairly
active. Trading began early and there was
no lagging until the supply was exhausted.
Natives were quoted at from \$1 to \$5.25, with
the greater part of the sales at from \$1.60 to
\$2.75 for cows, helfers and buils and at from
\$3.75 to \$4.75 for steers. Westerns were in
limited supply, and were firm at from \$1.50 to
\$4. and there was a strong market for Texas
cattle at from \$1.40 to \$3.15. Good grades
were generally from 5c to 15c higher than
yesterday.

were generally from 5c to 15c higher than yesterday.

The hog market was firm to a shade higher at the opening of business this morning, but the show of strength was short-lived. Soon after the beginning of operations the demand fell off, and prices followed suit, the close being scarcely as good as for Thursday. There was only a slight decrease in the arrivals. They were estimated at 22,000 head, making 141,311 head for the past live days, or 21,000 niore than for the same time last week. Some hogs were left unsold, and the market closed weak.

weak.

Not the slightest improvement can be noted in any feature of the sheep market. The supply is still overwheimingly in excess of all demands, and prices are distressingly low. For western grass sheep \$8 per cwt. is now practically the top of the market, and it takes more than an ordinarily good lunch of natives to bring as much as \$3.50 from those

prices. Sales ran as low as from \$1 to \$1.25, and the built of the 59.000 here within the present week changed hands below \$3. There were scattering sales of choice native wethers around \$3.75, and a sale or two of extra quality at better than \$4. The lamb market also has suffered a decline. It is off to from \$2.50 to \$4.75 for poor to choice grades. The prevailing low prices have stimulated the demand for feeding purposes, but the number thus disposed of was insignificant as compared with the number that had to seek other outlets. At this writing the pens are full of stale stock and the immediate outlook is not at all encouraging.

DOUGLAS COUNTY FAIR.

Preparations on Elaborate Scale for the Opening Next Monday. The bicycle race Monday, the opening day of the fair and races, promises to be a great success. Already twenty "bykers" are en-

tered and there are as many more applications in the hands of Secretary Engleman. Three clerks are kept busy from early morning until late at night in the secretary's office recording the arrival of entries. The entries now arriving include exhibits for the fine arts department and the floral halls. In one of the floral halls, this year, will be displayed the goods by merchants. A special committee has been busy all week soliciting displays from the merchants. The spaces

The baby show still continues to attract a great deal of attention. Scores of mothers have signified their willingness to enter their children, and there is no doubt of the success of the exhibit of the infants.

There will be dozens of pretty children in the show and Superintendent Connor expects to make this the leading feature of the

air.

The exhibits have begun arriving and by tomorrow noon most of the displays will be in place. Of the 200 horses entered in the only about fifty have arrived, but the rest will be in tomorrow. The races this year will be much better than heretofore, as this year Omaha is in the western circuit, and the horses which will be here will also visit St. Joe, Kansas City, Lincoln and Sedalia. This alone should assure the races a good

attendance each day.

The various buildings and stables have been thoroughly overhauled and today the exhibitors will begin filling their various spaces with their displays. The track is being put into first-class condition and it is the general impression that some good time will be seen.

Piles of people have pues, out De Witt's Witch Hazel Saive will cure them. Quartet sings tonight, Courtland.

Roberts' Preliminary Trial, William Roberts, who assaulted 12-year old Christina Christensen, was arraigned in police court yesterday afternoon, and upon a plea of not guilty his preliminary examination was proceeded with.

Besides the unfortunate girl, seven witnesses appeared for the prosecution. One of these, Dr. W. R. Orwal, testified that an examination of the girl's condition revealed damaging evidence against the accused. At the conclusion of the prosecution's testimony the defendant was bound over to the district court in the sum of \$3,000.

city. The prices ranged from 17 to 29 cents, according to existing conditions.

Hereafter the laborers in the sewer department will receive the same compensation as those in the street department, excepting the cleaners, who possess some expert knowledge. They will receive 25 cents per hour. This action was taken by the board upon recommendation of Major Furay.

Major Furay appointed T. J. McLean as foreman on sewer repairs at a salary of \$100 a month. The appointment was confirmed. A number of bills and estimates were passed upon and ordered recommended to the coun-

upon and ordered recommended to the council for payment. The salary of Charles E. Furay, Major Furay's clerk in the sewer department, was allowed. Chairman Winspear voting in the negative.

Yesterday afternoon Charles Martin and Pearl Brown were taken to the Presbyterian hospital to see if Peter Biaccia could identify them. The patient is very low and is expected to die. He could not be rallied enough to recognize any one. The prisoners were taken back to jail and a complaint was immediately filed against the Brown woman for assault with intent to murder.
